REGION Vinho Verde Wines / Sub-Region Sousa

TERROIR Quinta de Linhares is located at the municipality of Penafiel in the Vinho Verde Demarcated Region, Sousa sub-region. With 17 ha of planted area, our wines are produced with grapes, carefully selected and exclusively from Quinta de Linhares Vineyard. The vine is exposed to South-Southwest, between elevations of 250 to 300 m altitude. The climate is moderate to dry with low thermal amplitudes. Winters are not very severe and summers are mild and dry. It is a transition sub-region, although it is not directly exposed to Atlantic influence, this influence is felt due to the low accentuated relief. The soil type is sandy, rich in nutrients like Phosphorus and Potassium and poor in Calcium and Magnesium, producing wines of low pH and therefore more acids (3 / 3,2ph). The composition of granite origin confers a great minerality to the wines.

TASTING NOTES Wine with a delicate aroma, light notes of tropical fruits. In the mouth it has fruity notes such as lychee and passion fruit, as well as subtle notes of green tea and salinity. Quite fresh and with good acidity.
